

Caleb Klauder Stage Plot (6 members)

1. We use one SM '57 for the fiddle and a DI box.
2. We use SM 's 58 for the 2 vocals.
3. We use SM '57s for the 2 Acoustic guitars.
4. On the upright bass we use a DI and amp.
5. We use a SM '57 on the steel guitar amp.
6. On drums we use kick, snare, overhead.

Regarding sound system:

1. We require minimum 12 channel PA system with 48v. We use 11 inputs.
2. We require four tall boom stands, five short boom stands.

3. We require 11 XLR cables.
4. We require 2 SM '58, 5 SM'57, one drum overhead and one kick drum mic.
2. We we require three monitor mixes on stage (4 monitors speakers).
3. We require two main speakers capable of filling the audience space. 15" front of house powered speakers, on stands, typically works for 50-200 people indoor or outdoors. If more than 200 people outdoors, 2 sets of powered speakers on stands would be required.
4. We will need a front of house sound technician to run the sound.

Regarding performance space:

1. We require a minimum 12 x 10 stage/space to set up and perform.
2. We require full shade coverage if outside.
